

**Elevated Monitor Swivel Grease Kits  
Part # 103784-X-XX**

The Stang Elevated Monitor Swivel Grease Kits are designed to allow remote greasing of monitor swivels. Generally used for elevated monitor equipment, these kits can also be utilized for other greasing applications. Once installed there are two galvanized hard lines that travel up the side of the elevated tower. A bracket at each end provides grease nipples & a connection point for the flexible grease lines.

**Features & Inclusions**

- Galvanized Hard Lines
- All Mounting Hardware
- Hydraulic Hoses
- Grease Nipples

Dash Number	For Elevated Type	
-1-XX	All 102999 Series
